Concession of stamp duty on registration of sale deed/ lease deed of land for category A is 100%; for category B & B+ is 100%; category C is 100%; and for category D is 50%

SETTING UP OF INDUSTRIAL AREAS

In the special integrated industrial promotion policy announced for hilly and remote areas, on a total expenditure incurred on primary infrastructure facilities, like internal roads, drains, lighting etc, a provision of 50 per cent subsidy, up to Rs 50 lakh, was made. This has been done to promote the establishment of private industrial estates in hilly areas. In view of the expiry of the special industrial package approved by the Government of India, and the limited availability of land for industries in the integrated industrial estates developed by SIDCUL, private participation has been encouraged for the establishment of industrial estates/ areas. The main provisions of this policy are as follows:

- For the establishment of a private industrial estate, it is necessary to have at least 30 acres in the plain area, and at least 2 acres or more, in the hilly area.
- In the private sector, for the development of IT Park/ Biotechnology Park, it is necessary to have a minimum built-up area of 18,000 sqm, as per the prevailing building bye-laws of SIDA.
- For private industrial estate/ area, the investor/ promoter will arrange the land from his own resources.
- For the development of industrial estates/ areas, the SIDA/ unified building byelaws will have to be followed, and SIDA will act as the regulatory authority.
- It will be the responsibility of the promoter of the industrial estate to provide infrastructure facilities such as internal roads, drains, lighting, and other common facilities in such industrial estates.
- For the establishment of private industrial estates/ areas, the process of in-principle approval/ regulation will be of two stages. In the first phase, in-principle approval will be given for the establishment of the industrial estate. For the establishment in the second phase, as per the layout plan approved by SIDA on the acquired land, after submission of completion certificate, a formal notification will be issued.
- For the development of infrastructure facilities outside private industrial estates/ areas, an Infrastructure Development Fund will be created with a fund of Rs 100 crore. This fund will be operated by SIDCUL. In relation to the total capital investment made in the private industrial location, 2 per cent will be given for infrastructure facilities outside the location.
- Under this policy, capital subsidy at the rate of Rs 10 lakh per acre will be given in four phases against the capital investment made on the infrastructure facilities within the locality, and for the establishment of CETP in private industrial localities, fixed capital will be provided. Subsidy will be given up to 40 per cent of the investment, up to a maximum of Rs 1 crore.
- This policy will be applicable from the date of issue of notification and will be effective for the next five years.

THE UTTARAKHAND LOGISTICS POLICY-2023

ELIGIBLE ACTIVITIES

- Logistics park, inland container depot, warehouse, truck terminal, logistics vehicle, cold storage etc.
- Development of eco logistics or green logistics/ technology logistics facilities.

- 45,000 sq ft land required for truck terminal with minimum investment of Rs 5 cr.
- Minimum area for cold storage 5,000 sq ft.

SINGLE-USE PLASTIC BAN: POLICY BOOST FOR SUSTAINABLE SOLUTIONS

Single-use plastic, be it of any shape - plastic carry bags (with or without handles) of thickness, size and colour and non-woven poly single use bags made of polypropylene, thermocol (polystyrene), polyurethane, styrofoam and the like; disposable cutlery or plastic, such as plate trays, bowls, cups, glasses, spoons, forks, straws, knives, stirrers, etc - the production, purchase, sale, import, storage, use and supply of these have been banned in the state of Uttarakhand. In addition, by notification of the government dated August 12, 2021, the Ministry of Environment, Forest and Climate Change, India, from July 1, 2022, the manufacture, import, storage, distribution, sale and use of expanded polystyrene articles are also prohibited.

By banning the use, storage, manufacturing, buying, and selling of single-use plastic products, production work has stopped in the units engaged in the manufacture of these products in the state. Employment has also been affected by this. With a view to combating plastic waste pollution and eradicating single-use plastic by promoting innovation and entrepreneurship, and to encourage manufacturing of alternative products in the form of substitutes to single-use plastic, financial incentives have been provided in the MSME Policy 2015 (as amended from time to time). Towards giving incentives, this policy has been approved by the cabinet as well.

Following provisions have been made for additional financial incentives:

1. INVESTMENT PROMOTION ASSISTANCE: Fixed capital made in plant and machinery and workshop building of the enterprise. Top-up investment incentive subsidy of 10% (maximum Rs 10 lakh) on investment.

2. INTEREST SUBSIDY: Payable on term loan taken from financial institution/ bank for establishment of enterprises an additional interest reimbursement assistance up to Rs 1 lakh/ annum/ per unit for C category districts, up to Rs 2 lakh/ annum/ per unit for D category districts, (as classified by the MSME policy).

3. REIMBURSEMENT OF SGST: In diversification of existing enterprise or establishment of new enterprise for manufacture of alternative products, the total gross SGST to be received by the state government from the SGST chargeable on new plant and machinery reimbursement assistance of 20 per cent (after ad-
