

Dr B Ravi Pillai with Honorable Prime Minister Shri. Narendra Modi

In India we are particularly proud of our iconic Leela Raviz Kovalam, which is celebrating its Golden Jubilee this year. We have also luxury properties like The Leela Raviz Ashtamudi in Kollam, The Raviz Kadavu and The Raviz Calicut (All 5-star properties).

Our Kovalam property is celebrating its 50th year of operational milestone this year and we have planned a year-long celebration, inviting our guests to join us in the festivities. Having personally experienced the property as a guest for more than four decades, it holds a special place in my heart. Furthermore, in response to the post-COVID boom in the hospitality sector worldwide, we have continued to explore opportunities for growth and expansion.

Apart from hospitality and construction, RP Group has successfully ventured into the healthcare sector. We operate a multi-specialty hospital called Upasana Hospital in Kollam, which provides comprehensive healthcare services to the community. Additionally, we have established a nursing college and a school to contribute to the development of skilled healthcare professionals. We also own the New Millennium School, the best CBSE School in Bahrain.

In line with our diversified approach, RP Group also has a presence in IT, trading, and the retail business, further expanding our reach across various sectors.

In IT, we are investors and owners of IT companies in US, India and GCC and planning to expand our operations. Recently, during my trip to New York earlier this month, in a public forum I expressed my intent to invest further in this endeavor. We have allocated a budget of USD 1 Billion to invest in good companies that offer the right potential and have the right skill set.

Leela Raviz Kovalam

Our expansion into these sectors aligns with our vision to make a meaningful contribution to society while capitalizing on new opportunities for growth and development.

Q Looking back at your 50 years' journey, whom do you prefer to salute for your success?

Throughout my 50-year journey in business, I salute with deep gratitude and respect: God

In the education sector, RP Foundation has undertaken numerous initiatives to provide quality education to children from disadvantaged backgrounds to bridge the educational divide and empower students to achieve their full potential.
