Premium Design

Contemporary dashboard layout features premium upholstery and finishes

QUINTESSENTIAL MACHO LOOKS

The styling of the XUV700 builds on Mahindra's legacy of churning out head-turning designs with its macho looks that combine with sophisticated styling touches to make the new SUV all the more desirable. The wide stance emphasises its butch visage while the elongated LED DRLs and powerful LED headlamps instantly turn heads. The redesigned tail lamps look cohesive with the overall looks and complement the clean rear-end design. The interior of the XUV700 exudes luxury and top-notch fit and finish levels, with the 10.25-inch twin screens being the dashboard's pièce de résistance.

Intuitive and conveniently located, electrically adjustable seat functions make adjustments a breeze

Leather-wrapped gear lever along with aircraft-style toggle buttons add to the cabin's premium feel

10-spoke diamond-cut alloy wheels finished in brushed metal reflect the grille's design elements
