The goddess Meenakshi, the three-breasted warrior-queen, as carved in stone at the end of a long passage known as Trimul Naik’s Portico or Puthu Mandapam, in Madurai’s Meenakshi Amman Kovil temple. Now the centre of a bustling bazaar complex, the Puthu Mandapam was built in the 1630s by Raja Thirumalai Nayak as a summer abode for the goddess Meenakshi and her spouse, Lord Shiva as Sundareshvara. Her missing left hand originally held a lotus. From an album of forty-one prints by the pioneer photographer Edmund Lyon in 1868.
