MITSUI & CO.

TCI COLD CHAIN SOLUTIONS

Everything Intelligent, Everything Cold Chain

India is the world's largest producer of milk & second largest producer of fruits and vegetables. The country has a substantial production capability of marine, meat, and poultry products. This sector requires temperature-controlled logistics. In FY 2022, the market size of Indian Cold Chain market was valued at INR 1,814.9 billion and is expected to exhibit a CAGR of 12.3% during 2023-2028 period.

However, the idea of an 'unbroken cold chain solution' is still far from reality, owing majorly to lack of proper infrastructure and high-cost scenario.

ABOUT US

This is where the synergized efforts of country's leading integrated multimodal solutions provider & one of the global leaders in logistics and supply chain management (along with other business portfolios) come into play. TCI Cold Chain Solutions (TCI CCS) Limited, a joint venture between Transport Corporation of India Ltd. ("TCI") & MITSUI & CO., LTD. (MITSUI) provides end-to-end integrated cold chain logistics solutions in India. The focus is to be a seamless cold storage and logistics service provider for major local and global companies across various industries that include fresh food supply, dairy, quick service restaurants (QSR), pharmaceuticals and specialty chemicals. The division has a handling capacity of up to 13,000+ pallet positions across entire temperature range (-25 to +25 degrees Celsius) & has 200+ reefer vehicles in major cities across India. This is in addition to TCI Group's 13 million square feet of warehousing space, 6 coastal cargo ships, 3 AFTO trains, 12000+ trucks & 650+ ISO Tank Containers.

Amongst many other milestones, TCI CCS operational excellence got recognized when in the year 2022 it won **India's first National Logistics Excellence Award hosted by Government of India, Ministry of Commerce & Industry, DPIIT for the display of innovation, diversity, and efficiency.** The company, also is the member of Global Cold Chain Alliance (GCCA), comprising of CEBA (Controlled Environment Building Association), IARW (International Association of Refrigerated Warehouses), IRTA (International Refrigerated Transportation Association) & WFLO (World Food Logistics Organization).

With TCI's & MITSUI's legacy spanning over 6 decades and 7 decades respectively, the depth of subject knowledge positions the JV well to deliver best-in-class value to its customers. The partnership of both these companies goes back in time to late 1990's when another collaborative business called, Transystem Logistics International Pvt. Ltd. was formed. It remains to be the leader in its space till date and the expectation to exceed market standards remain the same with this TCI Cold Chain Solutions too.
