KEY TAKEAWAYS

- *Class* is a Hindi Netflix drama adapted from the Spanish series *Elite* and features high-school students
- It explores issues of class difference, casteism, violence, morals and sexual mores that affect the youth of India
- In February, *Class* debuted as No. 1 in Netflix India's list of 'Top 10 TV shows in India today'. A second season will be released later

believes that it captures the trials and tribulations of today's youth in real ways. They think the audience identifies with their characters. *Class*, they say, talks about extremely sensitive issues in a way that's not in-your-face, but with subtlety, braiding its observations with the course of the narrative. Zeyn thinks the one thing that distinguishes today's youth is their constant engagement with social media, which he says can affect mental health. The story is about three working class youth enrolled in an elite high school and their interactions with their classmates. Naturally, it explores the issues of class differences, casteism, sexual mores and morality. Naina says she knew in her gut that the show would do well, given the authenticity of the material. The audience at India Today Conclave seemed to agree. ■
