OF ALL EXPECTATIONS

"Today, Uttar Pradesh has become the name of hope itself. If India is now a bright spot for the rest of the world, then Uttar Pradesh is playing an important role in driving the growth of India. Uttar Pradesh has a lot moref potential than many big countries of the world. A lot of good work has been done in the education and skill development sector in Uttar Pradesh. Nothing can be a better partnership than the combination of the vision of the double engine government and a state with lots of possibilities."

— Narendra Modi, Prime Minister of india

management this has reduced to 6% of the budget.
After coming to power, the Yogi government came up with a theme for every budget. In the financial year 2017-18, the Yogi government devoted their budget to farmers. In fiscal year 2018-19, the budget was for Industrial development and infrastructure related facilities. In the year 2019-20, the budget was focused on women empowerment and the budget of financial year 2020–21 was for youth and infrastructure development. The theme of the budget of financial year 2021-22 was from self dependency to empowerment and the budget of 2022–23 was devoted for self reliant Uttar Pradesh and Antyodaya.
In the same way the real essence of the budget of 2023-24 is self reliant Uttar Pradesh. The double increase in the volume of the budget of the state in the last 6 years, displays the commitment of Chief Minister Yogi Adityanath to expand the economy of Uttar Pradesh. The major portion of the announcements made during the budget of next fiscal year is focused on the infrastructural expenditure in the state. It means that the money which will be spent on the increase of infrastructure facilities in the state is going to play an important role in the generation of employment avenues.

FARMERS BECOMING PROSPEROUS

- More than rupees 3.5 lakh crores have been sent through DBT into the accounts of farmers to bring change in their life. If we add the waiver of loans into it, then the gross amount crosses 4 lakh crore rupees.
- The state government has done the payment of 2 lakh 2 thousand crore rupees to sugarcane farmers. There was no procurement policy for paddy and wheat before 2017. Government implemented the procurement policies to bring farmers out of the clutches of middlemen.
- Only 123 lakh metric tonne paddy was procured between 2012 to 2017. Farmers got only Rs 17,190 crores for this purchase. But from 2017 to till date, around 345 lakh metric tonne paddy have been procured and farmers got around Rs 64 thousand crores through DBT for this purchase.
- Around 94 lakh metric tonne wheat was procured from 2012 to 2017 and farmers got 12800 crore rupees as its payment. But from 2017 to till date, around 290 lakh metric ton wheat have been procured and farmers received 40159 crore rupees through DBT as its payment.
- In order to give relief to the farmers, government has decided to procure the crop of wheat which was affected from untimely rain and other crops at minimum support price. Chief Minister has directed to prepare the proposal for relaxation in norms for this purpose.
