TELANGANA STATE, THE POWER HOUSE

From erratic power supply to power holidays, before the formation, the state has seen the worst. A sure-footed policy in energy generation and distribution has been put in place by the government. To keep the growth story in motion, thousands of Sub stations are constructed on war footing basis.

At a time when States like UP, Gujrat, Maharashtra, and Rajasthan, among other, are plagued with power supply issues, Telangana has emerged as the state which is giving 24-hour uninterrupted quality power to all the sectors, including domestic, industry and agriculture.

- In **2014** the installed capacity of power is **7,778** MWs and it is now **17,305** MWs.
- Telangana state became Number one in the country in Per Capita Power Consumption.
- In Solar power generation, the state has recorded a whopping **4431** MWs generation from a mere **74** MWs eight years ago.
- The government has strengthened the power distribution and supply net work in such a way that it could withstand the highest demand of **17,000** MWs.
- The Yadadri Ultra Mega Power Project in Nalgonda district is being constructed at a faster pace and the Bhadradri Thermal Power Project in Kothagudem district is completed

GOVERNANCE AT THE DOOR STEP OF PEOPLE THROUGH REFORMS

The Telangana state government is implementing revolutionary reforms in the administration to take governance to the door step of the people. As part of re-organisation of the district, 33 districts are formed out of the 10 districts.

Revenue Divisions are increased from **42** to **74**.	Revenue Mandals are increased from **459** to **594**.	Municipalities are increased from **52** to **129**.	Municipal Corporations from **6** to **13**.	Police Commissionerates from **2** to **9**.	Gram Panchayats are increased from **8,695** to **12,769**.	Newly **7** Police Commissionerate buildings are complete.

In tune with the glory and prestige of Telangana State, a wonderful secretariat Complex is being built with all the modern facilities. At all the districts Head Quarters, Integrated District Collectorates building complexes are being constructed to make all the departments work under one roof.

MISSION BHAGIRATHA: ROLE MODEL FOR THE COUNTRY

The brain child of Telangana Chief Minister K. Chandrashekar Rao, Mission Bhagiratha aims to provide safe drinking water to urban and rural areas through a pipeline. Telangana is the only state in the country which is supplying protected drinking water to all the people in the state. The Union Jal Shakti Ministry announced that through Mission Bhagiratha Programme, cent percent houses are getting protected drinking water through taps. The Union Government on the floor of the Parliament has announced that with Mission Bhagiratha programme Telangana State aims to became Fluoride Free State.

HARTIHA HARAM - THE GREEN AND CLEAN TELANGANA

The third human effort to increase green cover on the Planet earth, after China and Brazil is Telangana State. Implemented with a missionary zeal, Haritha Haram programme aims to increase increasing the green cover by **33** percent.

For the past eight years, **243** Crore saplings were planted at a cost of Rs. **8,511** Crore.

Forests to the extent of **12.63** Lakh acres are revived.

109 Urban Forests are developed in the cities and towns.

Forest Survey of India reported that there is an increase of **7.7** percent Green Cover in Telangana State.

For the first time in the world a Green Budget has been introduced to develop a sense of participation and involvement by all sections of people
