DS HEADQUARTERS

Epitomizing Commitment to Mission Green

Founded in 1929, the DS Group (Dharampal Satyapal Group) is a Multi-Business Corporation and one of the leading FMCG (Fast Moving Consumer Goods) conglomerate. The Group has created a strong Indian and International presence with its extensive portfolio and diverse range in Mouth Freshener, Food and Beverage, Confectionery, Hospitality, Agri, Luxury Retail and Tobacco. Rajnigandha, Catch, Pulse, FRU, Maze, Ksheer, Pass Pass, BABA, Tulsi, L'Opera, Le Marche, Birthright, The Manu Maharani and Namah are some of the leading brands, the Group proudly shelters today.

The organization is a remarkable blend of history and legacy with a vision that responds to social and environmental impacts alongside profits. Guided by a clear set of values and built on a strong foundation of philanthropy, corporate social responsibility is an integral part of the Group's business objectives to enhance livelihoods, build sustainable communities. With a firm commitment to move expeditiously on the path of Sustainable Development, the conglomerate has been ever escalating its 'green' initiatives. The Group achieves this objective by working on projects across the country which are focused on critical areas such as Water, Livelihood, Education and have a transformational impact on communities. Future-focused, the Group has been steadily working on Energy Conservation, to reflect its response to what the world needs and its own role as a committed corporate citizen.

The DS Group Headquarters (DSHQ), situated at NCR houses the Corporate office, an R & D centre and state of art manufacturing facilities for Confectionery, Flavours & Fragrances and Edible Gold & Silver embellishments. It has been awarded Leadership in Energy and Environmental Design (LEED) Platinum certification, under the USGBC (US Green Building Council) existing building; O&M (Operation and Maintenance) programme version 4.0 for being a green building. DSHQ is the leader amongst all LEED v4 O&M existing Buildings worldwide for two consecutive years and still holds the highest number of credits amongst existing green building projects clearly making it a global leader. LEED is a globally recognized symbol of sustainability excellence, signifying that a building is lowering carbon emissions, conserving resources and reducing operating costs, while prioritizing sustainable practices.

The Group's Vice Chairman Mr Rajiv Kumar emphasizes, "***In the pursuit of improved prospects for the future generations and safeguarding our resources, we work to balance environmental, societal and economic considerations. Our sustainability initiatives are spread across the country and in the areas of energy management, water management, material conservation, recycling and waste management. This aligns our business, social and environmental objectives to make significant contributions to society and the country. This fulfills our ethos of responsible growth while delivering superior value to all our stakeholders"***.

LEED assesses green buildings worldwide on seven credit categories, which are then awarded points by USGBC. The Group has earned credits in these seven areas by the dint of its focused efforts:

Location and Transportation:

This category draws attention to the reduction in pollution and land development effect of employee transportation.

The alternate transportation survey revealed that 73.6% of the total workforce at the DSHQ uses alternate transport (pool car, shuttle bus services,
