But why is the LEED v4.1 O+M certificate important?

- Building construction and operations in 2019 accounted for the largest share of global **energy-related CO2 emissions (38%)**
- Corporates in India are keen on opting for business parks integrating **sustainable practices** and **green certifications**.
- **87% of corporates** agree that climate risk also poses a financial risk.
- Sustainability is now among the **top 3 considerations** in real estate.

Nucleus Office Parks is **India's Largest LEED v4.1 Operations and Maintenance rated portfolio**, the most prestigious building rating system in the world. This is a step towards supporting & providing for the people & planet while addressing issues related to energy efficiency, water consumption, water conservation, material selection, day lighting, waste reduction and many more.

How do our tenants & employees benefit?

EFFICIENT WATER USAGE | ENERGY MANAGEMENT | IMPROVED AIR QUALITY
CONNECTIVITY FOR TRANSPORTATION | EFFICIENT WASTE MANAGEMENT
