TELANGANA'S GREAT LEAP FORWARD

June 2, 2022 marks the eight years of Telangana statehood formation. After a tumultuous struggle for separate statehood, the new state focused on what it promised to the people who were ignored for long.

From utter neglect preceding statehood to a state of abundance and prosperity in 8 years - that is Telangana triumphant success story in short. It is also case study on what can be achieved within a short period of time. All this was possible with the visionary leadership of Chief Minister Shri. K. Chandrashekar Rao impeccable planning, execution of ideas & programmes and an unwavering approach to development and welfare of people.

Shri. K. Chandrashekar Rao on assuming the office, focused on all round reforms. Firing all the cylinders, in no time the Telangana government made rapid strides in irrigation, power, attractive destination for investment and all round welfare schemes focused on the inclusive development across the state.

In the process, Shri K. Chandrashekar Rao created a record of sorts in redefining development and there by being a model state for the whole nation. To begin with Telangana is the only state to provide tap water to every household through Mission Bhagiratha scheme, an uninterrupted and quality power supply to all sector, first of its kind in the country farmer's investment support scheme Rythu Bandhu, Mission Kakatiya – a flagship programme of the government aimed at restoring the tanks, Mission Bhagiritha – Drinking Water Supply Project for the town and villages apart from providing water for industrial needs, and a hallmark initiative of the government to provide quality and respectable housing for the poor – these are few of the sweeping and innovative developmental schemes.
