YOU, GLOW GIRL!

Kriti Sanon, who recently won her first National Best Actress Award for *Mimi*, talks about turning producer, her skincare brand and more

Q. You must be on cloud nine after winning the National Award for Best Actress for *Mimi*. Did you expect this honour?
Winning my first National Award for *Mimi* feels both incredible and surreal. It's undoubtedly one of the most significant moments of my life that I will cherish forever. The feeling is still sinking in! The pride in my parents' eyes and the pure joy expressed by my loved ones is something I'll never forget.

Q. *Do Patti* sees you turning producer for the first time. How does it feel to take on this new role?
I perceive myself as a versatile creator, juggling a spectrum of roles that span modelling, acting, producing and entrepreneurship. *Do Patti* holds a special place in my heart; I am not just acting but also producing the film. It is by far my most challenging role and I am looking forward to it.

Q. You recently launched a premium skincare brand, Hyphen. What sets it apart?
Hyphen is not just a skincare brand to me; it's a culmination of a vision to provide effective and accessible skincare solutions to consumers. Along with being vegan, we also maintain a zero-plastic footprint.

Q. A skincare ritual you swear by...
I swear by several skincare rituals! I believe in wearing an SPF every single day, whether indoors or outdoors. Double cleansing, never sleeping with makeup on and including antioxidants in my skincare routine are equally important to me.
