

Let's be honest. Most of us are trend followers. Therefore, if in the last decade modern minimal dominated the design-scape, that is what we saw shop after shop, home after home. Safe to say, it's been overused and abused, with results that are neither magical nor sophisticated. So, can yet another showroom that caters to a contemporary home truly stand out? The new Bay Window store in Hyderabad's Jubilee Hills, proves that it can.

Comfortable furniture concepts dot the store. However, more on that later, first let's take a closer look at the founders—Siddhant and Shivani Anand. The Anands also happen to be the owners of Elevate X (a high-end, global, multi-brand showroom), thus they know what customers want.

While Bay Window caters to a mid-luxury segment, it's all about a homely-but-luxe experience. "As you walk through the store you will realise it is not a cold sterile. In homes, the bay windows create cosy little nooks that everyone loves. We tried to recreate that comfort and warmth for our clients," says Shivani. In fact, that's why they call it Bay Window. "It is a 30,000 sq ft flagship, spread over five floors housing several collections designed in collaboration with various international designers and pieces by our in-house team," adds Siddhant.

Each floor houses different designs. If the ground floor is dedicated to the lifestyle collection in collaboration with global designers, the first floor highlights casual living concepts, the second floor is all about formal living, the third puts the bedroom at the forefront, the fourth takes care of everything your dining room needs, and the fifth is the terrace with a cafe.

The design and the wares aren't the only things the Anands pride themselves over. If you happen to catch them at the store, they will happily play the 'guess the price' game. Chances are you will lose. Why? Because for the quality, make and design, one cannot fathom affordability. A solid wood table with hand carving for instance, costs just ₹12,000.

Our advice, free-up your calendar when you come here, with so much to take in, a short-visit is impossible.
