

HOT NEW WHEELS

HIT THE ROAD IN THESE NEWLY LAUNCHED CARS THAT PROMISE A THRILLING RIDE

HYUNDAI VERNA

The new Verna follows Hyundai's global design language where the front gets a redesigned fascia with a single LED light bar called the Horizon Lamp and the LED headlamps placed below. The interior will debut with a new layout, using two 10.25-inch infotainment displays where one acts as a fully-digital instrument panel, seamlessly placed inside a single slab over the dash. The car also debuts a 1.5-litre turbo-petrol with a 6-speed manual or a 7-speed DCT.
