

CITROEN E-C3

Citroen has announced the prices for the brand's first electric car in India, the e-C3. The electric hatchback can be booked on Citroen's website for Rs 25,000 and prices start at Rs 11.5 lakh (ex-showroom). The e-C3 uses the same body and platform as the petrol-powered C3 hatchback but is powered by a 29.3kWh battery pack moving the front axle-mounted 57bhp electric motor. The car comes with an ARAI-certified range of 320km on a single charge.

Battery 29.3kWh Li-ion
Power 57bhp
Range 320km (ARAI)
Price Rs 11.5-12.4 lakh (ex-showroom)

Engine 2.0L petrol-hybrid
Power 185bhp
Price Rs 18.3-28.9 lakh (ex-showroom)

TOYOTA INNOVA HYCROSS

The Hycross uses a new monocoque chassis with a front-wheel drive configuration. The features include electrically adjustable and ventilated front seats, panoramic sunroof and multi-zone climate control. Two powertrains are on offer, of which one is a 2.0-litre, petrol-hybrid producing 185bhp. Toyota claims that the hybrid variant can return a fuel efficiency of 23.24kmpl.

BMW 7-SERIES

The seventh-generation of BMW's 7-Series has been launched in a single petrol variant—the 740i M Sport. The sedan gets a complete redesign with the new split headlamp and DRL setup flanking the large kidney grilles. The interior has been revamped too, the highlight being a massive 31.3-inch 8K cinema display mounted on the roof. For now, the 7-Series is only available with a 3.0-litre, in-line six engine which makes 380bhp and 520Nm of torque.

Engine 3.0L turbo petrol
Power 380bhp
Price Rs 1.7 crore (ex-showroom)
