INDIA-CHINA CONFLICT

ROOFTOP STALEMATE

The military stand-off between India and China in Ladakh began in April 2020. The 832-km Line of Actual Control (LAC) in Ladakh is undefined and both sides have claims and counterclaims. Army commanders of the two sides have spent over 150 hours in 16 rounds of talks to defuse tension.

THE MILITARY BUILD-UP

1.5 LAKH

troops deployed by India gradually, as the crisis built up, along with Bofors, air-defence systems and field artillery, armoured columns of T90 and T72 tanks

2 LAKH

soldiers PLA has with howitzers, T-15 light tanks and Type 81 and PHL-03 multiple rocket launchers

ORIGINAL FRICTION POINTS

- ★ Durbuk-Shyok-Daulat Beg Oldi Road
- ★ Hot Springs
- ★ Galwan valley (Patrolling Point 14)
- ★ Gogra (Patrolling Point 17A)
- ★ Pangong Tso 'finger' region

FRICTION POINTS YET TO BE RESOLVED OR UNDER DISCUSSION

★ **DEPSANG BULGE**
A tabletop plateau, the People's Liberation Army (PLA) of China blocked Indian army patrols up to 20 km inside PP 10 and PP 11. Before 2019, Indians used to patrol the area

★ **PP (PATROLLING POINT) 15 (NEAR KUGRANG NALLAH IN GOGRA)**
Before 2020, the Indian army used to patrol this point. The Chinese have set up a permanent camp close to it. India wants China to go back, but the Chinese in turn insist India move about 5 km away from another Patrolling Point, PP 16

★ **DEMCHOK**
The Charding Nilung Nullah or the CNN junction. PLA has erected three tents in front of the nullah since 2018. India has asked for them to be removed, but the PLA has refused
