Q+A

GOING BEYOND THE FORMULA

By choosing films of different genres, **Janhvi Kapoor** *is showing that she is every bit her mother Sridevi's daughter.* Good Luck Jerry, *her latest comedy, releases on Disney + Hotstar on July 29*

Q. You are only a few films old, but you don't seem fazed by the idea of carrying a film on your shoulders....
I enjoy challenging myself. When I look back at my filmography, I want to be able to say that I did different films. It's the influence of the stories I grew up hearing from my mother; stories of her doing diverse roles, what they did for her emotionally and how they led to her growth.

Q. You have been one of the first Hindi film actors to profess your love for films from the South. What do you think they do well?
I think something as pure as filmmaking comes down to the feeling with which you make it. Hindi cinema is considered the bigger industry, but I think we started replicating a formula of success. In the South, they seem so liberated from the shackles of calculations and formula.

Q. *Good Luck Jerry* is the remake of a hit Tamil film, *Kolamaavu Kokila*. Does it vary from the original?
The crux of the story is the same but the world is completely different. As compared to the South, there is an inherent sense of loudness in North India. This, in turn, changes the pace of the film's dialogue and the thinking of its characters.

Q. Your younger sister, Khushi, makes her Bollywood debut in Zoya Akhtar's *The Archies*. Did you give her any words of wisdom before she left to shoot?
She is the one who gives me *gyaan*. She was like 'Take care of yourself, don't do crazy things like you do.' She was hardly nervous, but I still have butterflies in my stomach when I shoot.
