## HOW POOR ARE THE TRIBALS?

**The gap in share of population below poverty line between tribal population and overall population is increasing in cities and villages**

### % OF POPULATION BELOW POVERTY LINE

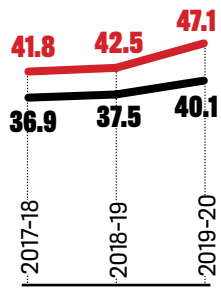

*Source: Planning Commission*

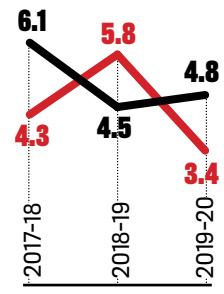

## WORKING BUT WITH LOW EARNINGS

**The labour force participation rate of STs is better than the rest. Yet its share in BPL population is higher, indicating low productivity jobs**

### LABOUR FORCE PARTICIPATION RATE

### UNEMPLOYMENT RATE

Total population | Tribal population
