Chapter 1: Indian Diversity and Global Migrations

1. Jawaharlal Nehru, *The Discovery of India* (Oxford University Press, 1946) p. 562.
2. According to the website of *Ethnologue: Languages of the World*, an authoritative source on language data, Papua New Guinea had 840 living languages, the most in the world, followed by Indonesia, Nigeria and then India at 454. On a scale from 0–1, India scores 0.91 on the language diversity index, the highest among countries with a population size of over five million people. China's score on this index was 0.52.
