SKILLED INDIA: INDIA'S PATH TO DEMOGRAPHIC DIVIDEND

SAMEER ARORA

Vice Principal, Shiv Nadar School, Gurugram

"Students need to be world-ready and not just job-ready...skills are what we have deeply embedded in our curriculum.... Digital literacy is going to be very important. You need students to develop skills such as creative thinking and soft skills such as collaboration"

DR RAJ NEHRU

Vice-chancellor, Shri Vishwakarma Skill University

"We design a programme because there is a demand for a certain job role and skilling components are aligned with it...students have to earn 60 per cent of the credits through work.... Unless you blend technology with all kinds of jobs, there won't be a transformation"

TRANSFORMING SCHOOL EDUCATION
