

POONAM VERMA
Principal, Shaheed Sukhdev College of Business Studies, New Delhi

"We can't be in a static world. The problems of today will not be the problems of tomorrow. What we teach our students has to be dynamic and we should build upon their intellectual curiosity"

MANISHA KINNU
Campus Director, NIFT, New Delhi

"We do focus a lot on theoretical aspects...but we do have classroom projects. We have industry coming to us for such projects, where students learn there can be several solutions to a problem"

RANGAN BANERJEE
Director, IIT Delhi

"For us, excellence is about breaking boundaries and looking at what's needed for society. We are looking at holistic education. Some of it is happening in the classroom and a lot in the activities that students are doing"

ANJU SRIVASTAVA
Principal, Hindu College, Delhi

"Excellence today is not just about books. There is so much more to be added to your personality. We encourage students to invest in developing interests in multiple disciplines to have diverse experiences"

DR FR JOSSY P. GEORGE
Director and Dean, Christ (Deemed to be University), Delhi-NCR campus

"We have to engage the youth through technology. We have made it compulsory for the faculty to do internships with the industry. We need to give more importance to technology"

K.K. PANT
Director, IIT Roorkee

"Education is not just bookish knowledge. If everything is available on social media, why would the student be interested? We have revised our curriculum, connecting each course with its practical applications"
