MANISH JAIN
MD (RADIOLOGY), 1993 AIIMS DELHI BATCH; CURRENTLY DIRECTOR OF I-MED MONASH RADIOLOGY, CLAYTON, AUSTRALIA

"Even 35 years ago, being at the institute was a privilege. It gave students exposure to all sorts of disease processes and conditions. Any new equipment or technology elsewhere in the world arrived at AIIMS within a few weeks"

ship programmes next year. The idea is to enable students who have completed their doctor of medicine (MD) degree and have on-field experience of three years as a senior resident to specialise in specific domains through a targeted fellowship programme.

Recognising that the field of medicine is fast expanding, the institute has introduced several new areas of study for which both acceptance and interest have grown over the last few years. These include courses like Oncology Anaesthesia, Infectious Diseases, Palliative Medicine, Reproductive Medicine, Fetal Medicine, Minimal Access Surgery and Renal Transplant Surgery, among others. "We hope to turn some of the fellowship courses we run into DM programmes soon. We are keen on adding more opportunities to our PG programmes, and in the last eight years, as my tenure as registrar, the seats have almost doubled," adds Lalwani. Notably, antimicrobial resistance threat in hospital ICUs is also an important area of study for AIIMS. Due to the institute's bold initiatives, students get an opportunity to witness first-hand medical breakthroughs. In July this year, AIIMS performed its first living donor liver transplant in an adult. "It was successful and gave students unique exposure," says Lalwani.

TOP 5

MEDICAL UNIVERSITIES WITH HIGHEST NUMBER OF SUPER SPECIALITY STUDENTS GRADUATING IN PAST 3 YEARS

RANK	UNIVERSITY	TOTAL NUMBER
1	ALL INDIA INSTITUTE OF MEDICAL SCIENCES, NEW DELHI	456
2	NATIONAL INSTITUTE OF MENTAL HEALTH AND NEUROSCIENCES, BENGALURU	133
