Students at the Central Research Facility lab in IIT Delhi

RAJWANT RAWAT

institute has well-established programmes in a number of engineering disciplines, including, but not limited to, Civil, Chemical, Electrical, Mechanical and Computer Science Engineering. "In addition to these, there are a number of niche areas in which we had a head start over others. These include Biochemical and Biomedical Engineering, Energy Studies, Applied Research in Electronics and Atmospheric Sciences, Rural Technology, and Transportation Research," says Professor Narayanan D. Kurur, dean, academics. More recently, the institute started programmes in Artificial Intelligence and has initiated an interdisciplinary programme in robotics.

At the postgraduate level, it has several industry-focused programmes run by different departments and centres. For instance, the Centre of Applied Mechanics runs an M.Tech

GURUSPEAK

"The curricula for PG programmes are flexible, enabling students to study and research in multiple domains. In line with NEP 2020, our programmes are multi-disciplinary, research-focused"

RANGAN BANERJEE
DIRECTOR, IIT DELHI
