THE INDIA TODAY GROUP IS BACK WITH ANOTHER EDITION OF ITS ANNUAL UNIVERSITY RANKINGS, PROVIDING CRUCIAL INSIGHTS INTO THE CURRENT STATE OF HIGHER EDUCATION IN INDIA

By KAUSHIK DEKA

ON the third anniversary of the National Education Policy (NEP) 2020, five central universities from North India have come together to sign an MoU for academic collaboration and resource-sharing with the Indian Institute of Technology, Ropar. The primary objective of this collaboration is to facilitate the comprehensive implementation of the NEP via consortium mode. The initiative will facilitate joint degree programmes, including research projects.

This is just one example of how university education in India has been going through an exciting phase of innovation and experimentation. Over the past three years, the higher education sector has seen multiple reforms, after the Union government and the University Grants Commission (UGC) identified five key areas of focus—education finance, administration, accounting system, a central higher education data repository, and internal autonomy.

From changing the norms of PhD admissions and approval for collaboration with foreign universities, to the recent introduction of the National Research Foundation (NRF) Bill, education at postgraduate level in universities is going through significant transformation. And these changes are being

INDIA'S NO. 1 UNIVERSITIES
