By Shelly Anand

The pandemic notwithstanding, the Institute of Hotel Management, Catering & Nutrition, Pusa, in Delhi, went out of its way to make sure that students didn't have to suffer any obstacles in their learning. All possible online media platforms were tried and the institute subscribed to the Cisco Webex portal to conduct both theory and practical classes. Audio-visual arrangements were made so that practical sessions could be held without any glitch, and all culinary, beverage, housekeeping and IDS software sessions were held with precision.
