The challenge of resuming on-campus classes halfway through an academic year naturally called for extra effort—the computer science department at Christ (deemed to be University) in Bengaluru tackled this phase with interactive sessions by industry experts and the alumni of the Bachelor of Computer Applications course. This was necessary because some of the students, as head of the department Dr Ashok Immanuel V. says, were attending classes on campus for the first time even though nearly two years of their course had gone by.

Hence, it was a pleasant surprise when things went off without a hitch and the software club and exhibition came back on track, he says. The BCA students' club is called 'Labyrinth' and its activities are two-fold—firstly, students develop software modules, some of which are put to use within the campus. The other component comprises talks by industry experts. "The year that went by had two different phases...one, of course, was the continuation of the pandemic and the other was the on-campus studies. This year, we had a different challenge because students were already in the online mode and all of a sudden they were coming back to the offline mode," says Immanuel. "So we had to do some extra orientation for the students."

The three-year undergraduate BCA course is aimed at bridging the gap between IT industries and the academic
