TOP 10 PRIVATE ENGINEERING COLLEGES

RANK 2022	RANK 2021	COLLEGE	CITY
1	1	BIRLA INSTITUTE OF TECHNOLOGY & SCIENCE (BITS) PILANI	Pilani
2	NP	INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY, HYDERABAD	Hyderabad
3	2	BIRLA INSTITUTE OF TECHNOLOGY (BIT) MESRA	Ranchi
4	3	MANIPAL INSTITUTE OF TECHNOLOGY (MIT)	Manipal
5	5	BMS COLLEGE OF ENGINEERING	Bengaluru
6	6	THAPAR INSTITUTE OF ENGINEERING & TECHNOLOGY	Patiala
7	8	SRM INSTITUTE OF SCIENCE & TECHNOLOGY	Chengalpet, TN
8	7	M.S. RAMAIAH INSTITUTE OF TECHNOLOGY	Bengaluru
9	NP	RV COLLEGE OF ENGINEERING	Bengaluru
10	9	PSG COLLEGE OF TECHNOLOGY	Coimbatore

The Department of Energy Science and Engineering was set up to expand the scope of activities carried out by the 45-year-old Centre for Energy Studies (CES) whereas the focus of the Transportation Research and Injury Prevention Centre (TRIP-C) is on addressing the road transport and traffic safety in India. The institute also started the new Optics and Photonics Centre. Several new academic programmes have also been initiated. "We have started a B.Tech. in Energy Engineering from the academic session 2021-2022 which will be offered by the Department of Energy Science and Engineering. And the bachelors in design will be starting from the academic session 2022-23 by the department of design," says Banerjee.

While an M.Tech. in electric mobility and master of public policy and an interdisciplinary M.Tech. in cyber security was started from the academic session 2021-22, a few key programmes that will be offered from the academic session 2022-23 are an M.Tech. in Machine Intelligence & Data Science, an MS(R) in transportation safety and injury prevention and an M.Tech. in biomolecular and bioprocess engineering.

There has been a sentiment of positivity as the campus saw record placements during the season between December 2021 and May 2022. There were over 1,300 job offers received by the IIT Delhi students while unique job offer selections were over 1,100. Even the pre-placement offers received were around 230 and around 600 companies visited the campus for around 1,000-plus job profiles.

The institute has been quite busy with research work as well. A team of IIT Delhi analysed over 1.4 million full-length SARS-CoV-2 sequences from across the world and discovered the existence of temporal variations in selection pressures during SARS-CoV-2 evolution and adaptation to the human host. Another team of researchers developed low-cost, elastic buckling-restrained braces for protection against earthquakes during ongoing construction works.

At the same time, the I-Hub Foundation for Cobotics (IHFC), the technology innovation hub of the institute, signed an MoU with the Council for the Indian School Certificate Examinations (CISCE) to design curriculum for schools in robotics, artificial intelligence, machine learning and data science. ITC Limited, on the other hand, signed an MoU with IIT Delhi to support research in identified STEM (Science, Technology, Engineering and Mathematics) areas. ■

GURUSPEAK

"Students are encouraged to think out-of-the-box, take the initiative and present their ideas. We believe learning happens both inside the classroom and outside"

RANGAN BANERJEE
Director and professor, Department of Energy Science and Engineering, IIT Delhi
