

ensures we have unmatchable quality standards that ensure patient safety is protected. Through its commitment to quality, it has procured the most precious element of the business and that is the trust of its patrons i.e. doctors & patients. It provides services and products which are safe and secure. It upholds the virtue of serving humanity.

AIMING TO BE A TRUSTED MEDICAL PARTNER TO HCPs

Medicine and its allied branches are growing at an exponential rate, resulting in a deluge of new diagnostic and therapeutic modalities. To keep pace with the latest developments in the treatment of various conditions continuous medical education programs (CMEs) are extensively and regularly organized. There is a tie-up with National and regional societies of various therapeutic areas to provide various specialty practitioners a platform for dissemination of knowledge to name a few FOGSI (Federation of Obs&Gyn Society of India), PCOs SOCIETY OF INDIA, AMOGS (Association of Maharashtra Obs&Gyn Society), POGS Society (Pune Obs&Gyn Society), IAP (Indian Association of Paediatrics), etc.,

A lot of scientific initiatives Akumentis healthcare takes to strengthen and update the HCPs on the latest guidelines for improving medical management/Line of treatment.

Various Patient awareness programs, health care campaigns, etc, are also a part of commitment to improving lives of patients.

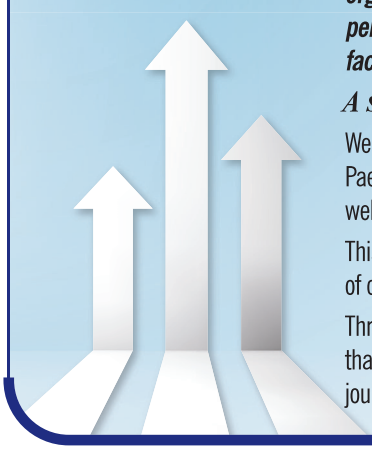

SUMMARY

Success is a journey and Akumentis is constantly striving to remain ahead of the curve in the Pharmaceutical Industry. Much is achieved but still lot more needs to be done in the service of humanity. It is continuously growing and will keep on expanding its horizon every day.

MR. PRADEEP PATNI
CEO, Akumentis Healthcare

Akumentis Success Story

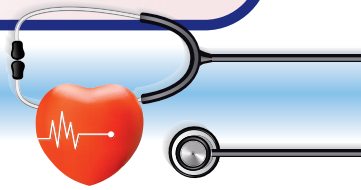

Elated on the spectacular growth of AKUMENTIS, **Mr. Pradeep Patni, CEO** said, "***We have made a remarkable growth during the financial year 2021-22 over Last year. With 11 rank jumps in IPM the organization is poised to move in Top 20 companies in the coming times. It has marked progressive performance in SMSRC –Rx Growth, Rxber Growth. Significant Rank Improvement has been a key factor for measuring the success of the firm.***"

A simple and focused approach played a key role.

We are currently present in the Therapies of Gynaecology, Orthopaedics, Cardiovascular/Diabetes, Paediatrics, and Dermatology. The kind of aspirations we have would entail us to move into more TA's as well as further increase our presence in existing ones. We have observed robust growth in all therapies.

This has been possible because of the continued focus on its core therapy areas and ensuring accessibility of our products as per the patients' needs in all geographies.

Through academic platforms, Akumentis have touched the base of 1.2 Lakhs practitioners. It is our honor that we can channelize the latest happening in particular therapy and partner with a practitioner in their journey of learning and refining skills to improve overall patient care.

DOCTORS DAY TO MEDICAL FRATERNITY.
