

CHANDRADEEP KUMAR

Dharmendra Pradhan
Minister of Education

CHALLENGES AHEAD

- Increase coordination with states for faster implementation of NEP
- To effectively implement NEP, the government must aim to take expenditure on education to 6 per cent of the GDP
- On paper, there has been a 31 per cent hike in budgetary allocation to the education department in the past five years but actual expenditure has been lower than the budgetary allocation since 2018–19
- Even after two years of NEP, the National Curriculum Framework is not ready
- Currently, 14,346 posts of teachers are vacant in KVs and JNVs and more than 6,000 in central universities
- The proposed single higher education regulator has not yet been set up
- Funds allocated to research and innovation have to be increased
