2024: MAPPING THE BJP STRATEGY

Nine states will go to the polls next year. They account for 116 Lok Sabha seats, of which the BJP won 92 in 2019. After the massive Gujarat mandate, the party will be looking to carry forward the dominance to these states. Preventing any further Himachal-like setbacks, and instead breaching rival bastions, will be vital as it seeks to gather steam for the 2024 campaign
