Chardham Yatra and the growing attraction of Uttarakhand among the people of the country. The number of devotees coming for Chardham Yatra is growing every year in the state. Government is committed to make the pilgrimage easy for the devotees. First time, the tourism department has made arrangements for online registration for the security of pilgrims. For the convenience of devotees, the tourism department is also running a toll free call centre for the first time. To develop Badrinath Dham on the lines of Prime Minister's dream project Kedarnath Dham, infrastructure is being developed here in phased manner under the master plan. Many construction works including street scaping, que management, beautification of temple and ghats, beautification of ponds, road and river front development and construction of parking places is going on in phased manner. The Dhami government has made specific budgetary allocation for the Kavad Yatra to provide all the facilities related to the Yatra.

FOCUS ON TOURISM

Chief Minister Pushkar Singh Dhami aims for making Uttarakhand number one state in the field of tourism in the coming 5 years. To promote tourism, a separate tourism policy has been implemented in the state. The state of Uttarakhand is also being strengthened through the 'Home Stays' by improving the rope and tunnel parking in partnership with the Government of India because of the state's enormous potential for tourism. On the lines of Chardham, new schemes like Manas Khand Mandir Mala in Kumaon division and 13 districts-13 destinations are being run to make Uttarakhand the top tourism centre in the country. Under the Manas Khand Mandir Mala in Kumaon division scheme, Major temples in Kumaon division will be provided best connectivity through better roads. The road connectivity between Garhwal and Kumaon divisions will also be improved. There are plans to expand the infrastructure and transport facilities at all temples and guru dwaras which fall in Chardham circuit. A committee is being constituted for fast implementation of schemes related to tourism in which officers of finance, housing, public works department, police, pollution control board and other related offices will be the members. The road, air and rail connectivity is expanding rapidly in the state. The State Government has reduced 18% tax on air traffic fuel to increase air connectivity in the state.

INCREASING CONNECTIVITY

For the development of Uttarakhand, special focus is on connectivity. Schemes of Central and state governments have been started to make the travel easier to the far flung areas of Uttarakhand. Work is going on rapidly on 125 KM long 16216 crore rupees worth Rishikesh Karanprayag rail project. The project is scheduled to be completed by 2024-25. Central government has also given approval for Tanakpur-Bageshwar and Doiwala to Gangotri-Yamunotri rail line survey along with the doubling of Haridwar Dehradun rail line. A lot of work has been done on Chardham all weather project to improve the road connectivity of Tanakpur Pithoragarh route along with Kedarnath Badrinath Yamunotri and Gangotri. Central government has also given the important gift of various projects including Paonta Sahib- Dehradun, Banbasa- Kanchanpur, Bhaniyawala- Rishikesh, Kathgodam Lalkuan Haldwani bypass and Rudrapur bypass. Preparation is also going on for the new metro rail in Dehradun. Jolly grant airport is being developed to international level. Uttarakhand becomes the first state where Helly service was started under the udan scheme. Uttarakhand civil aviation ministry has been conferred most proactive state in the year 2020 for successfully operating regional connectivity scheme.

10 SUTRA OF DEVELOPMENT

1	Vision plan of Uttarakhand @2025 and Uttarakhand @ 2030 are being prepared to make the third decade of the 21st century as the decade of Uttarakhand.
