BANDEEP SINGH

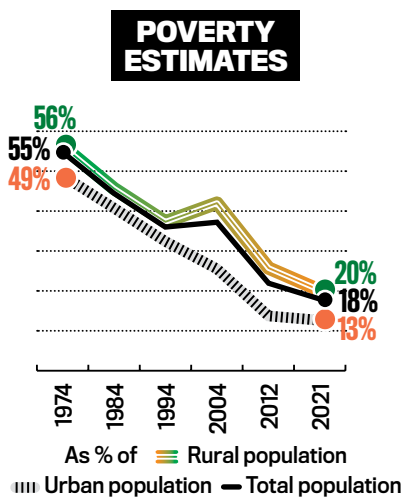

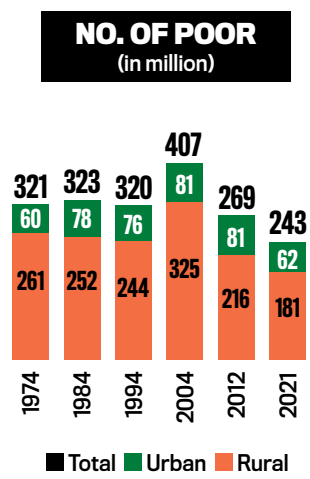

THE INCOME PARADOX
While per capita income has shot up considerably, it is still low in comparison to developed countries. Also, income grew rapidly only after the economic reforms of 1991, underlining the importance of lifting unnecessary curbs on private entrepreneurship

FAR FROM IDYLL
The bucolic charm of this Indian village, circa 1960, cannot disguise the poverty in the countryside

A POOR REFLECTION
Thanks to rapid population growth, we still have a high population of over 240 million people living below the poverty line
