

Azadi Ka Amrit Mahotsav

PATANJALI®

HAR GHAR TIRANGA

On the occasion of "Azadi ka Amrit Mahotsav" lets take a pledge for an independent India, to go Swadeshi

Multinationals have not only looted us economically of thousands of crores of rupees but also made us cultural and ideological slaves, whereas Patanjali while serving the country has enhanced the respect for our Sanatan Cultural heritage and national pride.

Why are Swadeshi products so important for self-reliant India (Atma Nirbhar Bharat)?

The steady decline in rupee value against the dollar is because of the indiscriminate use of foreign products by us all the time. Did you know that the Indian economy is still largely controlled by the MNCs (multinationals)? They actually monopolise the FMCG sector by adopting the only brand, Patanjali which gives a challenge to those companies on the grounds of 100% charity and by using only Make in India products. Lets resolve to make our country an economic superpower.

For freedom in education, get your schools affiliated to the Bhartiya Shiksha Board and for this, the first step should be taken by the parents to get freedom from Macaulay educational method. It'll be an excellent inclusion by the Bhartiya Shiksha Board where along with the modern and Indian education system which includes study of Hindi, Sanskrit, English, Social Science and History, knowledge of the values and traditions of Indian sanatan culture shall also be imparted. This will lead to creation of remarkable and noble citizens with divine personalities and divine leadership qualities and that's what all the parents want.

The implementation of the new education policy proposed by our respected and Honourable Prime Minister Mr. Narendra Modi will lead to The Atma Nirbhar Bharat in the field of education.
