Pradhan Mantri Bhartiya Janaushadhi Pariyojana

AFFORDABLE MEDICINES FOR ALL

Seva Bhi - Rozgaar Bhi

Pradhan Mantri Bharatiya Janaushadhi Pariyojana (PMBJP) was launched to bring basic healthcare within the reach of the masses and create employment by engaging individual entrepreneurs in opening of PMBJP Kendras. The pathbreaking scheme has successfully completed eight glorious years since its relaunch in 2015 in a whole new avatar

In general, medicines account for nearly 70% of total costs of treatment. Branded medicines, sold at higher prices due to the associated patent protection, advertising expenses and high profit margins, further accentuate the woes of common people. In this context, Pradhan Mantri Bharatiya Jan Aushadhi Pariyojana (PMBJP) assumes great significance as it seeks to reduce out-of-pocket expenses in healthcare, through the sale of generic medicines at exclusive outlets namely "Pradhan Mantri Janaushadhi Kendras" in various districts of the country. Run by the Department of Pharmaceuticals under the Union Ministry of Chemicals and Fertilizers, the scheme has gone a long way in making high quality medicines available to all citizens at affordable prices.

OBJECTIVES OF THE SCHEME

1. Ensure access to quality medicines for all sections of the population especially the poor and deprived ones.
2. Create awareness about generic medicines through education and publicity to counter the perception that quality is synonymous with high prices only.
3. Generate employment by engaging individual entrepreneurs in opening of PMBJP Kendras.

THE JOURNEY OF PMBJP

The PMBJP was launched in November, 2008 with an objective of having at least one Jan Aushadhi store in each district of the country but the scheme faced innumerable obstacles in realising its objectives. The Narendra Modi Government revamped the 'Jan Aushadhi Scheme' in 2015 as 'Pradhan Mantri Jan Aushadhi Yojana' (PMJAY).To give further impetus to the scheme, it was again renamed as Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP). As on 30.06.2022, there are 8742 PMBJP Kendras functional across the country.

BENEFITS OF PMBJP

Medicines under PMBJP, through lesser in price, are equivalent in quality and efficacy to expensive branded drugs. The low cost of the medicines enables beneficiaries to save money while getting proper medication. In the current financial year i.e. 2022-23 till 30.06.2022, PMBI has made sales of Rs. 256.60 crore which has led to savings of approximately Rs.1540 crore to the citizens. In all, during past eight years, total savings of approximately Rs. 15000 crore for the citizens have been possible due to this scheme.

The PMBJP also provides a good source of self-employment with self-sustainable earnings. The scheme has made the quality drugs available at affordable price through public-private partnership in the form of dedicated stores selling generic medicines. Thus, the scheme is truly doing justice to its tagline "Jan Aushadhi - Seva bhi, Rozgar bhi".
