MORE BANG FOR THE BUCK

A repository of history and tradition, the Indian armed forces have proved themselves in the heat of battle. It is now one of the world's most modern militaries

The Indian military has gone through a series of changes since Independence. After the end of World War II, out of the 1.25 million wartime troops in the old Indian Army, tens of thousands were demobilised, many units disbanded. With Partition came the division of the Indian armed forces between India and Pakistan in the ratio of two-third to one-third. Steeped in traditions, and matching pomp

THE FOREIGN HAND

Though India spends a lot of money on its armed forces, much needs to be done vis-a-vis reducing dependence on foreign suppliers
