"From the start of schooling to communication in sign language, digital textbooks to a structured assessment to analyse learning, National Education Policy is extensive and futuristic. May education brighten our nation and lead it to prosperity."

- Narendra Modi

Haryana Energises e- Education

While Prime Minister Sh. Narendra Modi's transformative National Education Policy (NEP) 2020 has set an ambitious vision for Haryana, Chief Minister Manohar Lal has reaffirmed his commitment to chasing the NEP goals in a mission mode and implement the policy in letter and spirit by 2025, five years before the target set by the Central Government.

Translating the prime minister's vision into practice Haryana has already taken the first decisive steps in this direction through the NIPUN Haryana mission, focused on ensuring children below 8 years of age attain foundational literacy and numeracy (FLN) skills.

The state government has also designed a program where universities in the state will provide education from KG to PG level in the same campus, and the government will bear the fee of students from families having income of less than Rs 1.8 lakh per annum.

e-Adhigam Scheme

Under the new education policy Haryana has been laying a lot

"Data equipped tablets are tools for students which will help them acquire skills of the 21st century and open new opportunities. Through e-learning, students of Haryana will become global students and help realise the Prime Minister's dream."

- Manohar Lal
