

"The WHO Global Centre for Traditional Medicine is recognition of India's contribution and potential in this field. India's traditional medicine system is not limited only to treatment. It is a holistic science of life. India takes this partnership as a huge responsibility for serving the entire humanity."

— Shri Narendra Modi, Prime Minister of India

entrepreneurs, industry leaders, AYUSH start-ups and other stakeholders. As part of the event, five plenary sessions, eight roundtables, six workshops, and two symposiums were organised and around 90 eminent speakers and 100 exhibitors were in attendance.

JAMNAGAR: AT THE FOREFRONT OF AYURVEDA RESEARCH

Jamnagar, the fifth largest city in Gujarat, has a rich legacy of Ayurvedic traditions patronised by the erstwhile royal family. During the reign of Jam Saheb Digvijay Singhji (1933 – 1948), an Ayurveda visionary Dr. P M Mehta, who also was trained in western system of medicine, was appointed as the royal physician of the state. Dr. Mehta followed and practiced Ayurveda and impressed upon the king and the queen to establish a centre for Ayurvedic Studies and as a result, Shri Gulabkunverba Ayurvedic Society was established in the year 1940. Subsequently, in 1944, a palatial, iconic building was constructed and named 'Dhanwantari Mandir'.

In 1963, the three Ayurveda colleges in Jamnagar— Shree Gulabkunverba Ayurveda Mahavidyalaya, Central Institute for Research in Indigenous

At a time, when the demand for essential medicines and vaccines is rising, traditional medicine systems are serving as key pillars for the healthcare sectors across the world. In recent years, several traditional medicine therapies have been transformed with the aid of artificial intelligence and they have become more accessible to the masses due to technological innovations. Through the GCTM, a comprehensive health strategy will be created with the aim of integrating all the benefits of traditional medicine with scientifically proven results.
