

"India has been proven a pioneer in the field of traditional medicine since time immemorial. The knowledge sharing and cooperation has been documented in history and in continuation of the same, focused efforts have been relentlessly undertaken by Ministry of AYUSH. The establishing of the Global Centre is an effort to bring synergy and cooperation in this domain, and would benefit all the member states."

— Shri Sarbananda Sonowal, Union Minister of AYUSH

toured the newly-built campus of the Gujarat Biotechnology University (GBU) in Gandhinagar. Johnson took a round of the campus and was explained functioning of various departments. GBU, a post-graduate university established recently by the Government of Gujarat, is the first such university to have its focus on biotechnology in the country. The university has been established in collaboration with the University of Edinburgh of the United Kingdom. Very soon, GBU will have a high-tech testing facility and a research building. The university offers courses in medical, environment and industrial biotechnology, among other streams.

GUJARAT HAS SEVERAL OTHER INSTITUTES WHICH ATTRACT STUDENTS FROM ACROSS THE COUNTRY SUCH AS:

- Indian Institute of Technology, Gandhinagar, Gujarat
- Sardar Vallabhbhai National Institute of Technology, Surat, Gujarat
- Indian Institute of Information Technology, Vadodara, Gujarat
- National Forensic Sciences University, Gandhinagar, Gujarat
- Rashtriya Raksha University, Gandhinagar, Gujarat

It was also announced recently that the Centre has allowed setting up of foreign universities at Gandhinagar's Gujarat International Finance Tec (GIFT) City, where courses ranging from financial management to engineering will be offered, to boost skilled manpower in the country's finance sector.

In March this year, PM Narendra Modi had dedicated the building of Rashtriya Raksha University (RRU), at Lavad village near Gandhinagar, to the nation. RRU offers academic programmes from diploma to doctorate level in various areas of policing and internal security such as police science and management, criminal law and justice, cyberpsychology, information technology, artificial intelligence and cyber security, crime investigation, strategic languages, internal defence and strategies, physical education and sports, coastal and maritime security.

GUJARAT TO BECOME A WORLD LEADER IN TRADITIONAL MEDICINE

In a recent event, 'Future Impact on Pharma & Healthcare with Diversity & Inclusivity: Vision 2030', Smt Smriti Irani, Union Minister of Women and Child Development, said that the out of US$24 million of national exports in pharma sector, Gujarat accounts for 25%. So already the hub of pharma, Gujarat aims to become world leader in traditional medicine.
