## Infrastructure

The University is currently running from 15 locations spread across all of Delhi with another 7 locations to be added this year. It is targeting creating a uniform infrastructure across all campuses as part of its identity and for the betterment of the students. Since it has subsumed many existing colleges, the University has worked on giving the exisiting buildings a facelift as well as giving an identity to each campus. Infrastructure is the first point of contact for anyone visiting the institute and the aim is to make the students feel connected to the campus.

- All campuses **Wifi-enabled**
- Infrastructure created for **remote/online classes**
- Procured specially designed furniture for **better posture, increased focus**
- All classrooms equipped with **audio-visual facilities**
- **Laboratory infrastructure** upgraded in all campuses
- **Mega labs** for computer training, software training
- **Hostel facility** for NavGurukul residential program
- Improving **sports infrastructure** in all campuses
- **Digitalisation of Library catalogue**, making provisions for total catalogue access for every student

DSEU
Crafting Excellence

## Delhi Skill and Entrepreneurship University

Govt. of NCT of Delhi

## The road ahead

The University was conceived as an institution that trains students for the real world and becomes a small part of India's answer to the unemployment crisis. It was to bring in a new kind of pedagogy and a system in which the University becomes an institute not just for teaching and learning but for the overall growth and development of the nation. With the opening of seven new campuses this year and plans to further add to this number in the coming years, the University aims to expand its area of influence and create specialized centres of excellence. The University has set up an incubation centre to help students set up their entrepreneurial ventures. It also aims to launch a mega event this year for DSEU students to enable them to work on innovative ideas and pitch to investors to get funds & support for their start-up ventures. It is, thus, on the path to becoming a blueprint for the country in the field of skill education.
