amount of moisture at that stage. The temperature at which saturation occurs in a given sample of air is known as dew point.

14. Nimbostratus is a low cloud which is said to be long duration rainfall cloud.
15. Cirrus clouds: Composed of ice crystals, lit up long before other clouds and fade out much later. Refraction of light in cirrus clouds produce sun's halo.
16. Sublimation is the transition of a substance directly from the solid to the gas phase, without passing through the intermediate liquid phase.
17. **Single-cell thunderstorm**: Single-cell thunderstorms are small, brief, weak storms that grow and die within an hour or so. They are typically driven by heating on a summer afternoon.
    Single-cell storms may produce brief heavy rain and lightning. Very common in India during summers, mostly April, May. In Kerala they are called 'Mango Showers' and in Karnataka 'Blossom showers'.
18. The world's most electric place, the most lightning activity on Earth is seen on the shore of Lake Maracaibo in Venezuela.
    At the place where the Catatumbo river falls into Lake Maracaibo, October sees 28 lightning flashes every minute — a phenomenon referred to as the Beacon of Maracaibo or the Everlasting Storm.
19. Regional name for the tropical cyclones in western Australia are called as Willy-willies.
20. Storm Surge is an abnormal rise of sea level as the cyclone crosses the coast.
21. The Fujiwhara effect, sometimes referred to as the Fujiwara effect, Fujiwara interaction or binary interaction, is a phenomenon that occurs when two nearby cyclonic vortices orbit each other and close the distance between the circulations of their corresponding low-pressure areas.
22. El Niño is the name given to the occasional development of warm ocean surface waters along the coast of Ecuador and Peru.
    When this warming occurs the usual upwelling of cold, nutrient rich deep ocean water is significantly reduced.
23. Southern Oscillation, in oceanography and climatology, is a coherent inter-annual fluctuation.
    Only El Nino = [Warm water in Eastern Pacific + Cold water in
