

69. Climatically, the development of an El Niño brings drought to the western Pacific, rains to the equatorial coast of South America, and convective storms and hurricanes to the central Pacific.
Severe droughts occur in Australia, Indonesia, India and southern Africa.
Heavy rains in California, Ecuador, and the Gulf of Mexico.

70. The winds in the upper atmosphere, 2-3 km above the surface, are free from frictional effect of the surface and are controlled by the pressure gradient and the Coriolis force.
When isobars are straight and when there is no friction, the
