(b) Egypt
(c) Madagascar
(d) Libya

73. Consider the following statements:
    1. It is highest Legume producing country of Africa on which India often depends upon to meet domestic pulse demand during price rise.
    2. It is a coastal country with an ocean channel of the same name adjacent to it.

    Identify the African country based on the information given:
    (a) Mozambique
    (b) Egypt
    (c) Madagascar
    (d) Guinea

74. Consider the following statements:
    1. It is a transition zone between Earth's one of the most extreme ecoclimatic zone and a grass land ecosystem.
    2. Acacia is the most dominant tree species in this ecoclimatic zone.
    3. River Niger flows through this ecoclimatic zone.

    Identify the ecoclimatic zone in Africa based on the information given:
    (a) Sahara
    (b) Ethiopian Highlands
    (c) Sahel
    (d) Swahili

75. Consider the following statements:
    1. It is a coastal ecoclimatic zone in Africa protected by coral reefs and barrier islands from severe weather.
    2. The golden-rumped elephant shrew, an endangered insect-eating rodent with a long snout, is a dominant species here.

    Identify the ecoclimatic zone in Africa based on the information given:
    (a) Sothern Africa
    (b) Atlas Mountains
    (c) Sahel
    (d) Swahili
