Classification	*Count*	*Koppen-Geiger*	*Examples*
Tropical Savanna climate	173121	Aw	Laos, Kinshasa, Abidjan, Dar es Salaam, Ibadan
Hot semi-acid climates	71392	BSh	Luanda, Dakar, Kano, Accra, Tripoli
Hot desert climates	52953	BWh	Cairo, Alexandria, Khartoum, Giza, Omdurman
Tropical monsoon climate	33002	Am	Douala, Conakry, Port Harcourt, Aba, Monrovia
Hot-summer Mediterranean climate	16132	Csa	Casablanca, Algiers, Fes, Rabat, Meknes

13. The largest diamond producers in Africa are South Africa, Angola, Botswana, Namibia and the Democratic Republic of Congo (DRC). In this southcentral region, diamonds are mined from kimberlite mines in South Africa, Angola and the DRC, and from alluvial dredging mining operations in Angola, Namibia and again, South Africa.

    Africa produces roughly 45% of world's diamonds. Approximately half of which is produced in Botswana.
