from Africa. This river arises in Zambia and flows through eastern Angola, along the north-eastern border of Namibia and the northern border of Botswana, then along the border between Zambia and Zimbabwe to Mozambique, where it crosses the country to empty into the Indian Ocean.

17.
- Cape of Good Hop e: is a rocky headland on the Atlantic coast of the Cape Peninsula in South Africa. A common misconception is that the Cape of Good Hope is the southern tip of Africa. This misconception was based on the misbelief that the Cape was the dividing point between the Atlantic and Indian Oceans. Contemporary geographic knowledge instead states the southernmost point of Africa is Cape Agulhas about 150 kilometres to the east-southeast.
- Cape Horn: Southernmost point in the Tierra del Fuego islands of South America and the official dividing point between the Atlantic and Pacific oceans.
- South East Cape: Southernmost point of the main island of Tasmania, roughly 4° 30' farther south than South Point, Victoria, the most southern mainland point of Australia, on the north side of the Bass Strait separating Tasmania from the southeast Australian mainland
- Cape Agulhas: Southernmost point of Africa and the official dividing point between the Atlantic and Indian oceans.
