- Equator passes through Victoria Lake, one of the Great lakes shared by Kenya, Uganda and Tanzania.
- Victoria Waterfall is formed by River Zambezi near border between Zambia and Zimbabwe. River Kagera feeds Victoria Lake and White Nile is primary outflow. White Nile is called as Victoria Nile because of this.

71. All three are African Countries
    - Sao Tome and Principe: Island country located in Gulf of Guinea off western equatorial coast of Central Africa.
    - Cape Verde: Cap-Vert or the Cape Verde Peninsula is a peninsula in Senegal, and the westernmost point of the continent of Africa.
    - Eswatini: A landlocked country in Southern Africa. It is bordered by Mozambique to its northeast and South Africa to its north, west, and south.

72.
    - Arab Republic of Egypt is a country in the north east corner of Africa, whose territory in the Sinai Peninsula extends beyond the continental boundary with Asia.
    - Due to the extreme aridity of Egypt's climate, population centres are concentrated along the narrow Nile Valley and Delta, meaning that about 99% of the population uses about 5.5% of the total land area. Ninety eight percent of Egyptians live on 3% of the territory.

73. It is highest Legume producing country of Africa on which India often depends upon to meet domestic pulse demand during price rise.
    Maputo is capital of Mozambique.
    It is a coastal country with an ocean channel of the same name adjacent to it.

74.
    - The Sahel is a narrow band of semi-arid land that forms a transition zone between the Sahara to the north and the savannas to the south. It is made up of flat, barren plains that stretch roughly 5400 kilometres (3300 miles) across Africa, from Senegal to Sudan.
