- The Sahel contains the fertile delta of the Niger, one of Africa's longest rivers. Unfortunately, the Sahel's fertile land is rapidly becoming desert as a result of drought, deforestation, and intensive agriculture.
- Acacia, whose deep root systems are ideal for semi-arid climates, are among the most common trees found in the Sahel.

75. The Swahili Coast stretches about 1610 kilometres along the Indian Ocean, from Somalia to Mozambique. The nearby coral reefs and barrier islands protect the coast from severe weather.
There is not a lot of animal life on the sandy Swahili Coast. The golden-rumped elephant shrew, an insect- eating rodent with a long snout, is common.
