(d) 1, 4 and 5 only

53. Consider the following statements:
    1. The gravitation force (g) is same at different latitudes on the surface for the same altitude.
    2. Understanding Earth's interior helps us in understanding internal structure of various solar system objects.

    Which of the statement(s) above is/are correct?
    Choose the right combination from below:
    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) Neither 1 nor 2

54. Consider the following statements:
    1. The high temperatures of Earth's core is attrib¬uted to automatic disintegration of the radio¬active substances apart from primordial.
    2. It is the same process which is responsible for energy generation on sun's surface.

    Which of the statement(s) above is/are correct?
    Choose the right combination from below:
    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) Neither 1 nor 2

55. Consider the following statements:
    1. The point at which the energy is released is called the focus of an earthquake.
    2. The point on the surface, nearest to the focus, is called epicentre.
    3. Epicentre is directly above focus.

    Which of the statements above is/are incorrect?
    Choose the right combination from below:
    (a) 1 and 2 only
    (b) 2 and 3 only
    (c) 1, 2 and 3
    (d) None of the above

56. Consider the following statements about natural earthquakes:
