36. In 1915, the three Murray states - New South Wales, Victoria, and South Australia - signed the River Murray Agreement which proposed the construction of storage reservoirs in the river's headwaters as well as at Lake Victoria near the South Australian border. Along the intervening stretch of the river a series of locks and weirs were built. These were originally proposed to support navigation even in times of low water, but river borne transport was already declining due to improved highway and railway systems.
37. The Great Barrier Reef is the world's largest coral reef system composed of over 2900 individual reefs and 900 islands stretching for over 2300 km (1,400 mi) over an area of approximately 344,400 sq. km (133,000 sq mi). The reef is located in the Coral Sea, off the coast of Queensland of Australia.
38. The Australian continental landmass consists of six distinct landform divisions. These are: The Eastern Highlands-including the Great Dividing Range, the fertile Brigalow Belt strip of grassland behind the east coast, and the Eastern Uplands The Eastern alluvial Plains and Lowlands-the Murray Darling basin covers the southern part; also includes parts of the Lake Eyre Basin and extends to the Gulf of Carpentaria The South Australian Highlands-including the Flinders Range, Eyre Peninsula, and Yorke Peninsula The Western Plateau-including the Nullarbor Plain The Central Deserts Northern Plateau and Basins— including the Top End.
39. Lake Disappointment, or Kumpupintil/Kumpupirntily in the Western Desert Language, is an endorheic salt lake located in the Pilbara region of Western Australia.
40. Carey - Lefroy - Cowan - Dundas
41. Investigator Strait separates Gulf of Spencer and Gulf of St.Vincent. It is located on the south of Australia.
42. Sydney, capital of New South Wales and one of Australia's largest cities, is best known for its har- bourfront Sydney Opera House, with a distinctive sail-like design.
43. The Daintree Rainforest is a region on the northeast coast of Queensland, Australia, north of Mossman and Cairns. At around 1,200 square km, the Daintree is a part of the largest continuous area of tropical rainforest on the Australian continent.
