31. Which of the following is/are true?
    1. The process of vertical heating of the atmosphere is known as *convection.*
    2. The transfer of heat through horizontal movement of air is called *conduction.*
    3. Heating of air masses through the contact is called *advection.*

    (a) 1 only
    (b) 2, 3
    (c) 1, 2, 3
    (d) None of the above
32. How was the lithosphere evolved?
    (a) Due to the gradual increase in the density
    (b) Due to collision of the dumbel shaped body
    (c) With the escape of the primordial atmosphere
    (d) Due to solar winds
33. Consider the following statements:
    1. Water vapour decreases from the equator towards the poles.
    2. Stability and instability in the air of earth's atmosphere is maintained by the earth's gravity

    Which of the above statements is/are not true?
    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) None of the above
34. Which of the following is/are true?
    1. Ozone absorbs a part of terrestrial radiation and reflects back some part of it towards the earth's surface.
    2. CO_2 prevents the solar radiation from reaching the surface of the earth.

    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) None of the above
35. Which factors below facilitates the condition of temperature inversion?
    (a) Long night in summer
    (b) Long night in winter
