world. Since Independence, India has promoted a mixed economic system in which the government, constitutionally defined as “socialist,” plays a major role as central planner, regulator, investor, manager, and producer.

Statement II: CORRECT—Many of the government’s decisions are highly political, especially its attempts to invest equitably among the various states of the union. Despite the government’s pervasive economic role, large corporate undertakings dominate many spheres of modern economic activity, while tens of millions of generally small agricultural holdings and petty commercial, service, and craft enterprises account for the great bulk of employment.

29. Statement I: INCORRECT—India has one of the youngest populations in an aging world. By 2020, the median age in India will be just 28, compared to 37 in China and the US, 45 in Western Europe, and 49 in Japan.

Since 2018, India’s working-age population (people between 15 and 64 years of age) has grown larger than the dependant population — children aged 14 or below as well as people above 65 years of age. This bulge in the working-age population is going to last till 2055, or 37 years from its beginning.

Statement II: CORRECT—This transition happens largely because of a decrease in the total fertility rate (TFR, which is the number of births per woman) after the increase in life expectancy gets stabilised.

A study on demographic dividend in India by United Nations Population Fund (UNFPA) throws up two interesting facts:

- The window of demographic dividend opportunity in India is available for five decades from 2005-06 to 2055-56, longer than any other country in the world.
- This demographic dividend window is available at different times in different states because of differential behaviour of the population parameters.

30. Statement I: CORRECT—Better economic growth brought about by increased economic activities due to higher working age population and lower dependent population. It will be channelised in following ways: Increased Labour Force that enhances the
